## OUR STORY

## Four Bears™

Our winery is a family business created to produce wines that, from vintage to vintage, consistently exceed our customers' expectations in quality and price. Our grapes come from premium vineyards that are strategically located near the cool marine influences of the sun-filled California Coast. With each new vintage, 4 Bears offers wines of consistent flavor and exceptional quality, from vineyards that are perfectly suited to each individual varietal. Each wine exudes the characteristics of its grape variety and the chosen vineyard within a specifically-selected appellation.

Our name represents what we hold dearest in our hearts, our family. Every venture begins with discovery. During the winemaking process, there are many times when we bring work home, and spend evenings tasting and discussing numerous lots at our family's kitchen table. On one such occasion, an early morning tasting session was interrupted by our daughter's questions about our selection process. With the innocence and clarity of childhood, she equated the process of finding the wine that was "Just Right" with one of her favorite bedtime stories about a little girl trying to find a chair, a bowl of porridge, and a comfortable bed in the home of three bears.

Our daughter is not Goldilocks, but she is indeed one of our "4 Bears," so we named the winery for her and her three brothers. The initials of Nick, Elle, Jack and Charlie are branded on every bottle. 4 Bears Winery was founded to celebrate the things we prize most:

Delicious, approachable wines  
Expressive, terroir-driven flavors  
Great value for the price  
...and family!
